Section Title

SECTION SUBTITLE

Norms and Expectation

S

- **Be present.** Stay engaged with active participation and listening.
- **Keep an open mind.** Be curious. Validate and seek to understand. Allow yourself to change your mind.
- **Step Up, Step Back.** Make space for others who don't often speak to give their input
- **Have constructive disagreement.** Don't be afraid to disagree. Disagree with the idea, not the person. Practice "yes, and...". Be ruthlessly transparent and speak your perspective without blame or judgment.
- **Assume good intent.** Open lines of communication are encouraged if something said causes discomfort, feels off, and/or is worth exploring for better understanding from each participant.
- **Take ownership of shared decisions.**
- **Be respectful** and kind.
- **Have fun** and connect with your colleagues!

Let's tap our collective brain power

1. What are our conditions that'll shape our work in the **years ahead**?
2. What's happening on our issues and in our field that'll **shape our work**?

**PENDULUM SWING TOWARDS
REACTIONARY POLITICS &
RISK-AVERSION. CHALLENGING
ELECTORAL MAP. UNCERTAINTY
& A MOBILIZED OPPOSITION
THAT WILL TELL THE STORY
THAT WE GOT THIS WRONG.**

EXERCISE 1

What is our vision?

EXERCISE 2

(1) Example from **your work** and
(2) example from **different part**
of the organization.
